

Pinecone Gnomes

Supplies

Included:

Medium Pinecone
1/2 inch Wood Bead
Felt
Twine String

You will need:

Glue
Scissors
White Paint (optional)
Paint Brush (optional)

Instructions

- 1— Using your template, trace and cut out the hat
- 2— Carefully glue the sides of the hat together to form a cone (I used tacky glue). It's ok if the top stays open — let dry*
- 3— If you like, you can paint your pinecones.*
*You may want to let these dry overnight
- 4— Carefully place your hat over the pinecone, centering it so that there is a space between 2 leaves for the nose. Tack down with a little glue (I used hot glue for this)
- 5— Glue on your nose (holes should be on the sides)
- 6— Tie a string to the hat and hang it up!
